harshsparmar03@gmail.com | Anand, Gujarat

Education

Sardar Vallabhbhai Patel Institute of Technology (SVIT), Vasad **2021 - 2025**

- Bachelor of Engineering (B.E.) - Information Technology | Gujarat Technological University (GTU) | CGPA: **8.83**

St. Xavier's High School, Anand **May'21**

- GSEB (Class XII), Aggregate: **78%**

Knowledge High School, Anand **Mar'19**

- GSEB (Class X), Aggregate: **88%**

Skills

HTML | CSS | JavaScript | ReactJS | JQuery | PHP | Laravel | MySQL | NodeJS | Git | GitHub | PowerApps(Canvas App) | Power Pages

Work Experience

Associate Software Developer | ekZero Enterprise Software Services Pvt Ltd. | Remote **May'25 - Present**

PHP, Laravel, MySQL, JQuery, AWS

- Develop and maintain core modules and implement business logic using the MVC architecture for an Australia based solar company's website built with PHP, Laravel, MySQL, and jQuery.
- Integrate AWS S3 for efficient file storage and retrieval, enhancing system reliability and scalability.

Application Developer Intern | Dhyey Consulting Services Pvt. Ltd. | Vadodara, Gujarat **Jan'25 - Apr'25**

PowerApps (Canvas App), Power Pages, Power Automate, Dataverse, SharePoint

- Developed ERP related applications using Microsoft Power Platform, focusing on PowerApps Canvas Apps and Power Pages.
- Designed user centric interfaces and automated workflows to enhance operational efficiency.

Software Engineer Intern | Varenya Maritime Services Pvt. Ltd. | Vadodara, Gujarat **Oct'23 - Dec'24**

HTML/CSS, JavaScript, PHP, Laravel, MySQL

- Developed frontend interfaces using HTML, CSS, JS, and jQuery and backend using PHP and Laravel's MVC structure.
- Managed MySQL databases, including schema design, query optimization, and data manipulation.
- Collaborated with team members to deliver tasks on schedule, while actively contributing ideas and suggestions to enhance project outcomes and boost team productivity.

Project

TailorCV - AI Powered ATS Resume Optimizer | tailorcv.harsh-p.dev **Jun'26**

Next.js 14, TypeScript, Tailwind CSS, Groq AI, Supabase, Puppeteer, Render

- Built an AI powered resume tailoring tool that analyzes job descriptions and rewrites resume summaries and experience bullets to align with ATS requirements, improving keyword match scores from baseline levels to 80–95%.
- Built a fault tolerant AI processing system leveraging four Groq hosted LLMs(Llama 3.3 70B → Qwen3 32B → Llama 4 Scout → GPT-OSS 20B) with automated failover, achieving continuous service availability despite model specific rate limit constraints.
- Implemented server side PDF and Word export functionality using headless Chromium (Puppeteer) and docx, generating pixel perfect Letter size resumes with consistent formatting, and embedded clickable hyperlinks.
- Integrated Supabase Authentication with cloud synced resume optimization history and per user profile storage, enabling automatic loading of saved resumes and settings across devices upon login.
- Containerized and deployed on Render using Docker with system Chromium, eliminating serverless Chrome limitations.

SecureVault - Enterprise Grade Document Management System | securevault.harsh-p.dev **Feb'26**

Laravel, PHP, Tailwind CSS, SQLite, Docker, Render

- Architected role based access control for uploaders and viewers to enforce secure document management.
- Implemented secure in browser previews for PDF, DOCX, XLSX, PPTX, and TXT formats
- Designed time bound signed URL mechanisms to prevent unauthorized file sharing

- Developed sandboxed, AJAX restricted preview modules to enhance data security
- Enforced private storage policies with ownership based access and deletion controls
- Containerized and deployed the application using Docker with CI/CD automation on Render

Logo Flow - Custom Logo Creation Tool | logoflow.harsh-p.dev **Aug'25**

React, JavaScript, Iconify API, Tailwind CSS, HTML

- Developed a user friendly interface for designing and customizing logos.
- Integrated Iconify API to browse and select from a wide range of icons.
- Implemented a React color picker for icon color customization.
- Provided a real time preview of the logo design and facilitated easy download of the finalized logos.

Academic and Extracurricular Achievements

- **UI/UX Designer:** Designed Prakarsh 2023 event website for SVIT, Vasad using Figma and Canva, creating user centric interfaces that enhanced engagement and usability**.** **Mar'23**
- **Event Crew Member:** Served as a crew member for the BGMI event during Prakarsh 24, contributing to its successful organization and execution. **Feb'24**
- **Woodball Tournament:** Represented Gujarat Technological University at All India Inter University (AIU). **Apr'23**
- **NSS Volunteer:** Volunteered for 5 days at NSS Divyang Khel Mahakumbh Vadodara. **Apr'22**
- **Workshop Top Student:** Achieved 6th rank in Workshop Skills during the 1st semester of engineering, demonstrating proficiency and excellence in practical application. **Feb'22**

Additional

- **Languages:** Fluent in English and Gujarati; Conversational Proficiency in Hindi
